The HVAC inside the container adopts a 3kW high-efficiency variable frequency air conditioning technology scheme, with real-time intelligent speed regulation of the fan, which is efficient and ...

Designed for demanding applications, the 20-ft liquid-cooled ESS container is suitable for power generation, grid, and commercial & industrial (C& I) ESS scenarios that require high power and ...

Improved safety characteristics and specially optimised for the highest requirements on safety, reliability and performance. Suitable for industrial, utility, and grid ...

The CBESS is designed with liquid cooling and humidity control, active balancing ...

Specializing in intelligent controller solutions, Topband provides a wide range of Title with OEM & ODM services. Get a quote now.

Its main features, such as high energy density, flexible configuration, and low maintenance costs, definitely make it a huge power unit for various power ...

Full-stack energy storage solutions, driving a green future with electricity. Covering a full range of products including air-cooled/liquid-cooled outdoor cabinets, containers, and residential storage.

Easy to maintain for external operation. Save land area. The product has passed IEC, GB, UL, UN and other testing certifications.

This newly updated version maximizes energy density within a standardized 20HQ container, utilizing an aisleless design to deliver high-yield energy storage with a minimized footprint.

Sunwoda LBCS (liquid -cooling Battery Container System) is a versatile industrial battery system with liquid cooling shipped in a 20-foot container. The standard ...
