I'm on Octopus Agile and use the Octopus integration from BottlecapDave to read back the rates I've made a simple integration of an input box where I can enter the target rate to charge ...

The Octopus Agile Tariff is ideal for those who are tech-savvy, environmentally conscious, and looking to save money on their electricity bills. By taking advantage of real-time pricing, you can ...

I am looking to get a solar panel + battery set up, with an oversized battery to enable me to fill up at cheap times on the Octopus Agile tariff.

Previous companies had recommended Tesla Powerwall for the battery and most recommended SolarEdge inverters. But this company recommended a Fox inverter and a Fox Cube ...

"Average" is quite subjective - you don't consume the same amount each half-hour, so if your consumption is heavily skewed to 4.00pm-7.00pm you will have a much higher average than if, for ...

For now, I try to use it to recharge my battery during the day via excess solar (but I doubt this will work much more until the sun comes out again in March 2024), and a final forced-charge from the grid at ...

AgileBattery Powershell module to allow Tesla Powerwall and Octopus Energy integration for those on an Agile tariff. The module will continuously control of the ...

If you own an Electric Vehicle or have battery storage with GivEnergy, the Octopus Agile Tariff is ideal. When prices plunge you can plug in your vehicle and make ...

How does Agile Octopus work? At 4pm every day, your unit rates are updated for the next 24 hours, based on the wholesale market rates. The battery storage ...
