Our partnership with Sunsynk, a world leader in solar technology, ensures that the Democratic Republic of Congo will receive reliable, state-of-the-art solar energy solutions to meet its energy challenges.

A U.S.-based business called Peak Energy has announced the launch and distribution of their sodium-ion battery energy storage system (ESS), which uses a patent-pending passive cooling design to ...

Congo is facing a dramatic electricity crisis. For the population, the access to electricity is 1% in rural areas, 30% for cities and 9% nationally. Energy supply based on renewable energy source is one of ...

With abundant hydroelectric power and access to valuable raw materials, the Democratic Republic of Congo could dominate the production of battery precursors needed for ...

Through a blend of smart lithium storage, advanced inverters, and efficient solar panels, this system provides a blueprint for resilient, clean, and intelligent power infrastructure.

Battery Energy Storage Systems (BESS) are becoming essential in the shift towards renewable energy, providing solutions for grid stability, energy management, and power quality.

“Cabinet approval was granted yesterday to enter into a PPA with United Solar Group (USG) of Australia to invest in a 700MW solar power project with a 1500MWh of battery energy storage system ...

How to install the outdoor cabinet battery energy storage cabinet This guide provides step-by-step instructions on how to install your R-BOX-OC outdoor solar battery cabinet, including site selection, ...

Our certified specialists provide support for outdoor communication cabinets, power equipment enclosures, and battery storage cabinets across Africa. Subscribe for latest insights on outdoor ...
