With those different technologies at hand and our experience in the marine industry, we will design and build the best fitting package for your ship. The IFPS#174; is a ...

We design and manufacture low voltage generators up to 6300 amps and high voltage up to 15kV and suitable for connecting to frequency ...

Looking for a Shaft Generator for your ship? Check out the price list at Jiangyin Nangong Forging Co., Ltd. for top-quality products. Order now!

The SETH's S-Hybrid shaft propulsion system delivers a shaft power of 1,100 kW. The scope of supply for this project includes shaft generator frequency converter, a shaft motor, and an isolation transformer.

The MARHY tunnel gear unit is mounted around the propeller shaft line, and it transmits torque from the shaft to the generator through a highly flexible coupling.

This solution enables the operation of propulsion machinery in combinator mode - variable speed and pitch of the propeller - with the Shaft Generator online and generating power for the ship's electrical ...

Semi-Through Shaft Generator: High mechanical transmission efficiency and suitable for both new and older vessels, but the manufacturing process is more complex and costly. Explore the application ...

ABB supplies shaft generators for installation directly in the main shaft or for connection via a gearbox. Every shaft generator is tailored for an optimal match with the vessel design. Geared high speed ...

When the shaft generator is aligned with the gearbox drive shaft, the ships design engineer must take great care to allow for the thermal expansion of the hot gearbox, which may well expand and lift the ...
