Canadian Solar Bifacial Solar Panels are cutting-edge, high-efficiency solar panels that offer exceptional performance and durability. A sleek design featuring ...

Join Brendan as he takes you through the Lumera line of bifacial solar panels -- Canadian-made, high-performance solutions built for RV, marine, and off-grid applications.

Crafted with high-purity monocrystalline silicon cells, this panel is a versatile choice for RVs, rooftops, cabins, and more. Boasting durability, it withstands high winds, heavy snow loads, and Canadian ...

Bifacial solar panels are double-sided and feature increased efficiency and higher energy production compared to monofacial panels. Bifacial modules feature a unique solar cell structure: They capture ...

Revolutionize your solar installation with our state-of-the-art Canadian-manufactured 580W bifacial solar panels, engineered to capture light from both sides for unprecedented energy generation potential.

Built with precision and durability in mind, this panel captures light from both the front and back sides, significantly increasing total energy harvest--ideal for ...

Its dual-glass design enhances durability against snow, wind, and temperature extremes, while capturing additional sunlight from both sides of the panel. Built ...

Up to 25% Efficiency: TOPCon tech boosts solar conversion to 25%, with a dual-sided design delivering up to 138W, great for home systems or portable stations ...

Canadian Solar's bifacial modules set new standards in efficiency and reliability. With the latest N-Type TOPCon technology and light absorption on both sides, they achieve maximum energy yields. These ...
