Chinese-produced photovoltaic cells have made the construction of new solar power

# China Solar Power Generation Operator

projects much cheaper than in previous years. Domestic solar projects have also been heavily subsidized by the Chinese government, allowing for China's solar energy capacity to dramatically soar. As a result, they have become the leading country for solar energy, passing Germany's capacity in 20...

China was responsible for installing a massive 256 GW of that solar capacity. For context, it took until September last year to pass the 350 GW ...

China's solar power generation overtook wind for the first time last year as a boom in cheap panels continues to reshape the country's grid and climate trajectory.
