Construction has officially started on Finland's latest large-scale energy storage project, marking a pivotal moment for renewable energy integration in the Nordics.

This article explores how hybrid renewable projects like this are solving energy intermittency challenges while driving economic growth. Discover why hydrogen storage could be the missing puzzle piece for ...

Gas storage facility under construction in Rusororo-Gasabo, Kigali City Rwanda is constructing a natural gas reservoir that are set to be completed in the next two years at a cost of Rwf37.7billion.

As Rwanda accelerates its transition to sustainable energy, the Kigali Energy Storage Power Station emerges as a game-changer. This article explores how this project enhances grid stability, supports ...

We are experts when it comes to performs full EPC for hydro and solar projects for Utility-Scale, Commercial and Industrial, and Mini-Grid projects across Africa.

Energy storage technologies are being prioritised in order to improve system resilience and facilitate Italy's energy transition objectives, ranging from lithium-ion batteries to hybrid solar ...

The Gyeongsan Substation - Battery Energy Storage System is a 48,000kW lithium-ion battery energy storage project located in Jillyang-eup, North Gyeongsang, South Korea.

Rwanda is constructing a natural gas reservoir that are set to be completed in the next two years at a cost of Rwf37.7billion. The storage facilities with a capacity of 17,100 cubic meters (that is 17,100,000 ...

What is the Timor-Leste solar power project?The Project involves the construction and 25-year operation of a new power plant in Manatuto, Timor-Leste, comprising a 72 MW solar power plant co ...

Construction of new energy storage project in kigali

In May 2024, Southern Grid commissioned a 10 MWh sodium-ion battery energy storage station in Nanning, Guangxi province, the first large-scale sodium-ion battery energy storage station in China.
