This material is based upon the work supported by the Department of Energy and Office of Energy Efficiency and Renewable Energy (EERE), under Award Number EE0009457.

This technical bulletin provides an update on solar and storage installation compliance requirements in Part 6, California Energy Code, as well as CSU-specific reporting requirements.

Solar PV & Battery Energy Storage System (BESS) Model Bylaws Performed on behalf of the Department of Energy Resources Public Webinar - October 21, 2025 SEA, TRC, LSO Energy Advisors

This document is intended only to clarify existing requirements under the law or agency policies, including criteria outlined in 7 C.F.R. 4280-B and its appendices.

Intended to be a practical toolkit, the guidebook includes an annex that covers Concentrated Solar Power (CSP) technology and highlights aspects of the CSP project development process that differ ...

The provisions of this IR are intended to be a tool to identify, highlight and clarify Energy Code requirements that must be considered and incorporated into the design, as applicable, to provide a ...

Energy Storage Systems shall be listed to UL 9540 or successor standards and shall be certified by the California Energy Commission, except with program pre-approval.

This page describes the patchwork of federal, state, and local policies and regulations pertaining to renewable energy systems that impact ...

This resource aims to provide an overview of program and policy design frameworks for behind-the-meter (BTM) energy storage and solar-plus-storage programs and examples from across the United ...

Construction of photovoltaic energy storage policy documents

Customizable template for federal government agencies seeking the construction of one or more on-site solar PV systems.
