Our outdoor telecom cabinets and outdoor telecom enclosures are designed to house and protect telecommunications equipment in remote or exposed locations. Features include robust ...

Telecom Cabinet Instructions Telecom Cabinet Features Reasons For Choosing Us The cabinet with IP55 protection level is dustproof, sunproof, and rainproof, especially suitable for the outdoor environment. The cabinet uses two air conditioners as a cooling system, which can effectively reduce the temperature in the cabinet. The layout of the cabinet is reasonable to facilitate cable access, fixing, and grounding. There are entrance holes individually for power cable, signal cable, and optical cable. All the cables used in the cabinet are made from flame-retardant materials.
