-----

With a fully operational factory in Erbil, a professional technical team, and ongoing innovation, we design and build high-quality greenhouses, install solar panel systems, and deliver complete borehole water ...

Specially designed BiPV solar glass modules for greenhouses, Heliene's Greenhouse Integrated PV (GiPV) modules offer a sustainable alternative with ...

The greenhouse structure was built with pine timber, which was extracted sustainably, collected, and processed in the area of Valldaura.

Key characteristics: This greenhouse features a top covered with hollow solar panels and walls covered with hollow glass, combining the aesthetic appeal of glass greenhouses with the thermal insulation ...

In this article, it is proposed to provide a small greenhouse-powered solar system in all seasons in Baghdad, Iraq over the East-West orientation in (33.3 °N, 44.4 °E).

In this article, it is proposed to provide a small greenhouse-powered solar system in all seasons in Baghdad, Iraq over the East-West orientation in (33.3 °N, 44.4 °E). The system proposed includes ...

The optimal design of solar greenhouses can reduce the impact on the environment, leading to increased land-use efficiency and decreasing water and pesticide use at the same time ...
