Learn how to wire a generator to a house with solar panels safely, ensuring reliable backup power during outages.

How Do Gas-Powered Generators Work? Do Solar Panels and Generators Work Together? Is A Standby Generator Or Solar Battery System Better For You? Do You Really Even Need Backup Power with Your Solar Panels? For most homeowners, installing backup power with your solar panels probably isn't necessary. It costs thousands of dollars and most places in the U.S. have a fairly stable utility grid. It's a different story for those who live somewhere with unreliable access to grid power. If your area experiences regular blackouts due to extreme weather events...
