Car battery assembly plants are crucial components in the production of high-performance batteries for electric vehicles. In this detailed blog post, we will provide an in-depth and ...

Globally, Tesla has rolled off over 7 million vehicles and Shanghai gigafactory alone accounts of over 40% of it. Shanghai gigafactory began ...

Establishing an EV battery manufacturing facility during this industrial and economic shift poses unique challenges that require careful ...

As the blueprint of the electric vehicle battery plant takes shape, the focus turns to sourcing the essential components for the project: the machinery. ...

Tesla Shanghai Co., Ltd., a subsidiary of the electric automaker, was formally established 8 May 2018. In July 2018 Tesla CEO Elon Musk signed an agreement with the Shanghai regional government to build its third Gigafactory, and the first in China. In part due to the good relationship Musk had built with the government, it was permitted to be structured as a wholly owned subsidiary of Tesla and not operated as a joint venture with a Chinese company, the first time the government had allowed such an arrange...

Tesla's energy storage plant in Shanghai's Lin-gang Special Area commenced operation on Tuesday, as the assembly line started the production of the first Megapack unit.

U.S. carmaker Tesla's new Megafactory in Shanghai, dedicated to manufacturing its energy-storage batteries, known as Megapacks, launched production on Tuesday, marking a ...
