We provide energy consumption data by energy source, building type subcategories, and end uses. Each report concludes with a section on heating equipment, cooling equipment, and any ...

Solar energy in the United States is booming. Along with our partners at Wood Mackenzie Power & Renewables, SEIA tracks trends and trajectories in the solar industry that demonstrate the diverse ...

Lawrence Berkeley National Laboratory compiled and synthesized empirical data on the U.S. utility-scale solar sector.

In this analysis, the energy consumption structure varied significantly from country to country, but most of the 26 countries' economies were mainly developed through fossil energy ...

Prosumers (entities that are both producers and consumers of energy) are becoming more active market drivers around the world as electricity consumption prices go up and PV penetration rates increase, ...

Only official lab record efficiencies published in the Solar Cell Efficiency Tables, Progress in Photovoltaics: Research and Applications are included in the graph.

Consolidated tables showing an extensive listing of the highest independently confirmed efficiencies for solar cells and modules are presented. ...

When benchmarking in Portfolio Manager, we recommend that you focus on the primary function (or, main activity) in your building(s). Begin by selecting your primary function from the table below and ...

Estimates energy production and costs of grid-connected PV systems. Analyzes recombination losses in polycrystalline thin-film PV cells. This cloud-based tool can be accessed on ...
