Designed for harsh environments and seamless integration, this IP54-rated solution features a 105KW bi-directional PCS, optional air- or liquid-cooled thermal ...

FTMRS SOLAR specializes in photovoltaic power generation, solar energy systems, lithium battery storage, photovoltaic containers, BESS systems, commercial storage, industrial storage, PV ...

Dual fire suppression, ATS/STS ensure seamless power switching. Integrated ...

Discover our high-efficiency, modular battery systems with zero capacity loss and rapid multi-cabinet response. Ideal for industrial, commercial, and emergency ...

The Modular ESS (Energy Storage System) series consists of energy storage with a high energy density and many cycles (8000) placed in cabinets and complete with temperature control and fire ...

These cabinets are ideal for outdoor base stations in remote, mountainous, or desert regions, especially where grid power is absent, unstable, or costly. They are also used for border security, relay towers, ...

This integrated solar battery storage cabinet is engineered for robust performance, with system configurations readily scalable to meet demands such as a 100kwh ...

Built for durability, clarity, and operational efficiency, our cabinets help EMS chiefs, supervisors, and rapid-response units streamline communication, manage ...

It adopts a modular design, compatible with multi-source input and output of mains, photovoltaic, and energy storage, and can be flexibly configured according to scene requirements to provide ...
