From standard ISO containers to acoustic generator enclosures, our experienced Caterpillar engineers will work with you to design a custom, assembled enclosure for your diesel or gas generator set.

Jenbacher offers containerized generator sets based on our Type 2, 3, 4, and 6 gas engines. Leveraging the expertise acquired during several decades with more ...

Originally launched for limited markets in 2021, the 40-ft ...

PCS (Power Conversion System) Unlike Solar Inverters which are unidirectional, PCS has bi-directional capability, meaning it can allow movement of power in both directions.

Hitachi designed the 1-MW container-type energy storage system to incorporate all of the components, including the PCSs, batteries, and controller, into a 40-foot container as an all-in-one package.

This fully equipped 40ft. ISO container is as tough as they come and has been custom-designed for harsh environments, offering superb protection from dust, insects, humidity and heat - both inside ...

Such electric power users are looking for a solution that will allow for an increase in generated power while reducing the overall physical footprint necessary to generate this power.

The BoxPower MiniBox is a pre-engineered solar power station, prefabricated inside a 4' x 8' palletized enclosure. All energy systems are equipped with a ...

Simply put, dual packs are two parallel generators in one ISO container: Two 500 kW generators could be paralleled to achieve a 1000 kW output, or two 625 kW ...
