Stargarden Solar Powered Gazing Ball, 10 Inch Glass Gazing Globe, Decorative Gazing Balls with Metal Ball Stand, Colorful Solar Globes for Patio, Lawn, Garden Decor

Above the miniature array of solar cells is a large water-filled glass orb that works similarly to a magnifying glass in focusing the light that's present ...

The company claims these spheres could achieve 60 times more energy output than solar panels in natural or artificial light.

A German Architect has designed an innovative form of a solar power generator. Unlike being flat or thin like other PV panels, this one is a giant transparent sphere!

Shaped as a sphere that functions like a magnifying glass, this spherical solar collector concentrates the incoming diffuse sunlight on its surface through the ...

The betaray crystal sphere is a weatherproof glass ball which concentrates sunlight and moonlight into an intense beam that can generate electricity up to 70% ...

the spherical glass solar energy generator uses the advantageous strategy of implementing a ball lens and specific geometrical structure to ...

The glass sphere is used to concentrate diffused sunlight into a small surface of tiny solar panels. The ball lens is able to concentrate and diffuse light on one small focal point, which means less material ...

That's exactly what a young German architect has imagined: a hollow solar sphere that could transform how we capture light -- not only from ...
