---

Equipped with a rack-mounted lithium iron phosphate battery and an advanced intelligent BMS management system, providing integrated, compact, and ...

The Herewin 48V 100Ah 4.8KWH Base Station Communication Battery is designed to provide reliable and efficient energy storage for critical communication applications.

The Huijue Group Off-Grid Solution comprises three main components: photovoltaic systems, energy storage systems, and off-grid systems, enabling energy self-sufficiency. This solution is scalable, ...

The Hybrid Power and Battery Combo Cabinet integrates grid power, solar input, and battery energy storage into a single outdoor solution. Ideal for telecom base stations, edge data.

Next-generation battery management systems maintain optimal operating conditions with 45% less energy consumption, extending battery lifespan to 20+ years. Standardized plug-and-play designs ...

Our team can assist you in identifying the correct cabinet model, battery type, and configuration to ensure reliable integration with your UPS system and long-term performance for your facility.

Made from high-quality galvanized or stainless steel, it provides an optimal balance of mechanical strength, corrosion resistance, and environmental protection. Each cabinet features IP54-IP65 ...

With the P500E, you can transfer energy bi-directionally to the battery, grid and DG, helping you to achieve more functionality and maximise the benefits of your energy storage system.

Highjoule provides advanced BESS solutions for C& I applications, including energy storage cabinets (30kWh-1MWh), containerized systems (1MWh-30MWh+), and fully customized solutions.
