Meta description: Explore groundbreaking microgrid project case sharing with actionable insights on renewable integration, cost savings, and grid resilience. Discover how industry leaders ...

Case study: How a DC microgrid helps over 10,000 Kenyan tea growers bring their product to market Alencon's String Power Optimizer and Transmitters (SPOTs) connect solar to battery energy storage ...

This paper provides optimal design and techno-economic analysis of an islanded AC microgrid to cover the load of an international school in the New ...

We introduce and apply socially focused Key Performance Indicators (KPIs) to evaluate the impact of microgrid operations on community engagement, equity, and governance. The ...

This paper details the system objectives, design challenges, hardware selection, designed functionality, communication and cybersecurity aspects, and results from controller hardware-in-the-loop (cHIL) ...

Compare how different organizations are applying microgrid solutions for resilience. Isolate damaged distribution line segments and possibly back-feed loads downstream from the damage. Optimize the ...

This section of the wiki features a compilation of microgrid case studies, showcasing some important applications for energy storage. Each analysis presented in this report is grounded in ...

This report captures and shares experiences and lessons from the Miramar assessment, conceptual design, solicitation, engineering design, and construction process as well as from other ...

Another objective of this project is to design an advanced, scalable, powerful, yet economical MCS solution that can be easily repeated by utilities as DERs become more prevalent.

From project design to service and support, we're right alongside you. Contact one of our microgrid teams

today so we can learn more ...
