Hey everyone, I'm currently facing a bit of a conundrum with my ZFS pool setup, and I'm hoping that some of you knowledgeable folks out there can lend a hand. I have a ZFS pool with a ...

One volume consisting of 2x2tb mirror and a single stripe 1x1tb drive Steps to convert a single stripe to mirror From GUI, detach the volume, shutdown and unplug the existing drives. Install ...

The drive prices for 16TB drives (specifically Exos) are pretty decent compared to 10TB I think, thus why I want 16TB. Are there any downsides to a 3 way mirror? Would it allow two out of the ...

Can I add new empty hard drive to existing pool (with data) with only one drive? We should copy data from existing pool and continue working in mirror without data loss.

Afte a failure on one of my disks in the boot-pool mirror, I am unable to replace the failed disk. Im trying to replace the disk with an identical SATADOM...

Hello all, We currently have 2 servers and are planning to implement a two-way mirror solution to host our music collection, which currently have 18TB of data. The Server 1 (S1) is up and ...

ZFS is a complicated, powerful system. Unfortunately, it isn't actually magic, and there's a lot of opportunity for disappointment if you don't understand what's going on. RAIDZ (including Z2, ...

After confirming going from stripe to mirror was possible I went ahead and built my system with two storage pools. An "main" pool with 2 x 8TB drives for bulk storage and a "fast" pool with ...

Provides information on how to mirror the boot pool on TrueNAS CORE.

Yup, use wood glue to assemble the frame, then set the mirror in the rabbet/rebate (EN-us/EN-uk) and hold the mirror in with glazier's points.
