Our expertise in solar inverters, photovoltaic inverters, energy storage systems, storage containers, battery cabinets, solar cells, and lithium batteries ensures reliable performance for various applications.

The Mobil-Grid [®] is an ISO-standard, CSC-approved maritime container that integrates a photovoltaic power plant, ready to be deployed and connected, with integrated control cell and batteries.

The system integrates solar energy, pumped storage, and hydroelectric generation while enabling reclaimed water use for gravity-fed irrigation. After optimizing the operational algorithm, the ...

TLS intelligent containerised waste water treatment system or sewage treatment plant (STP) is a modular system where all waste water treatment equipment is completely preinstalled in ISO ...

Aquacycl provides the only modular wastewater treatment system for decentralized wastewater treatment that produces direct electricity without methane, ...

In response, MEOX Off-Grid Container Power Systems has emerged as a modular, rapidly deployable solution (4-hour setup) that integrates solar, storage, and ...

Explore the benefits and technology behind containerized off-grid solar storage systems. Learn how these scalable, cost-efficient solutions provide ...

OffGridBox is a project design and engineering company that provides renewable energy and clean water to remote communities around the world, with a focus ...

MOBIPOWER hybrid clean power containers combine battery energy storage systems with off-grid solar

Off-grid solar energy storage cabinetized mobile type for wastewater treatment plants

containers for remote industrial sites in Canada & USA.

With integrated solutions such as solar energy, lithium battery, UV disinfection, and automatic backwash, they can be made completely independent.
