Despite consuming less than 6 TWh per year and exporting close to 45 TWh per year, Paraguay faces blackouts as well as a serious risk of suffering an energy crisis.

In late 2024, Paraguay's ambitious Asuncion Gravity Energy Storage Project--a \$220 million initiative designed to stabilize the national grid using gravity-based ...

Summary: Located in the heart of South America, the energy storage power station in Puerto Cerro, Paraguay, represents a critical infrastructure project to stabilize the national grid and ...

Investment firms PASH Global and ERIH Holdings have formed a joint venture (JV) to develop utility-scale solar and battery storage projects in Paraguay.

Building Paraguay's Future Energy Storage Power Station in The new energy storage power station in Porto Cerro represents a strategic shift toward stabilizing the national grid while ...

As regional electricity demand grows at 4.2% annually (BNamericas 2023), this lithium-ion battery storage system - with its 200MW/800MWh capacity - solves critical grid challenges while ...

Thermal power plants generate electricity by harnessing the heat of burning fuels or nuclear reactions - during which up to half of their energy content is lost.

We serve customers in 28+ countries across Europe, providing mobile photovoltaic container systems, energy storage container solutions, and containerized energy storage power stations ...

The Cerro Port Energy Storage Export program positions Paraguay as South America's battery powerhouse. With unique technical capabilities and strategic location, it offers reliable clean ...
