---

On the construction site, there is no grid power, and the mobile energy storage is used for power supply. During a power outage, stored electricity can be used to continue operations without interruptions.

Distributed at aluminum mining camps with no grid connection and limited construction space, the folding solar containers facilitated quick installation, use of land space, as well as a stable ...

The lightest and most portable of our Energy Storage Systems, the ZBP 2000, which is built to small events, small construction sites, and is especially useful for powering small electric tools.

Our fleet of energy storage solutions operate at high efficiency, allowing you to get more power out of every drop of fuel. They also operate silently, which makes ...

This solution is designed to meet the development needs of renewable energy and new energy vehicles, that is, photovoltaic + energy storage + EV charging ...

The system integrates advanced lithium battery technology, a power conversion system, and an intelligent energy management platform, making it ideal for factories, shopping centers, office parks, ...

That's where AC-coupled energy storage systems with cloud monitoring swoop in like caped crusaders. These systems aren't just battery boxes; they're smart energy managers that negotiate with the grid ...

The PFIC50K64P30 is a compact all-in-one solar storage system integrating a 50kW power output, 64kWh energy storage capacity, and 30kWp high-efficiency foldable PV ...

FTMRS SOLAR specializes in photovoltaic power generation, solar energy systems, lithium battery storage, photovoltaic containers, BESS systems, commercial storage, industrial storage, PV ...
