Manufactured to meet ASTM C90 and C1491 specifications, these ballast blocks ensure durability and reliability. Each pallet includes 30 units of our Solar Panel ...

Designed to deliver unparalleled benefits, our precast concrete blocks provide the perfect foundation for your solar installations. Get your ground-mounted solar ...

Our solar ballast blocks are poured to your specifications to prevent movement and overturning of solar panel systems. Our ballast blocks are available in a wide ...

Weather-Independent Installation Reduced Environmental Impact Compatibility with Brownfield Sites Reusability at The End of Life One of the key advantages of using precast concrete ballast for solar panel bases is the ability to proceed with installation regardless of weather conditions. Unlike poured-in-place concrete, which requires specific temperature and humidity conditions for proper curing, precast components can be installed independently of the weather, reducing the...
