SolaraBox is built to solve project power needs. The system is modular and easily scalable: you can add multiple units to increase output, and it supports on-grid, off-grid, and hybrid configurations.

Large-scale, grid-connected or standalone systems for high-demand applications. Ideal for utility-grade resilience hubs and remote communities. Supports ...

This design makes the HighJoule solar container ideal for rapid deployment scenarios, such as emergency response, temporary commercial operations, construction sites, and off-grid ...

A Mobile Solar Container is a self-contained solar power unit housed within a transportable container. Designed for mobility, it offers rapid deployment of renewable energy solutions in remote or ...

Our products offer a reliable replacement for diesel generators & diesel reefer containers. Solarators(TM) reduce emissions and allow individuals, businesses, ...

With modular solar containers, organisations can start small and scale up: deploy one unit, monitor performance, then add more as demand grows. This incremental approach reduces ...

By integrating photovoltaic panels into shipping containers, solar containers can provide power in remote areas, during disaster relief efforts, or even in urban settings where space is limited.
