Japan is taking a major leap forward in renewable energy technology with the development of its new "solar super panel" project, aiming to generate ...

U.S. power plant developers and operators plan to add 86 gigawatts (GW) of new utility-scale electric generating capacity to the U.S. power grid in 2026 in our latest Preliminary Monthly ...

Japan unveils world's first solar super-panel: More powerful than 20 nuclear reactors Renewable energy in Japan will receive a seismic shift via perovskite solar cells, the latest development that would ...

OverviewDescriptionFossil fuel consumptionEconomic impactPerformanceEnvironmental impactsIn popular cultureExternal linksThe Ivanpah Solar Electric Generating System is a concentrated solar thermal plant located in the Mojave Desert at the base of Clark Mountain in California, across the state line from Primm, Nevada. It was slated to close in 2026, but that decision has been reversed by the California Public Utilities Commission. The facility derives its name from its proximity to Ivanpah, California, which lies within the Mojave National Preserve

Minebea Super Solar Power Ltd. (hereinafter "MSSP") is a joint venture company established in January 2025 by Minebea Thai and Super Energy. MSSP manages a complete set of ...

Oak Run Solar Project, LLC plans to construct the proposed Oak Run Solar Project in Ohio. The project is a large-scale solar energy initiative developed on 10,000 acres of land north of ...

SOLV Energy delivers the large-scale solar and battery storage projects that keep these industries powered -- on time and at massive scale. With proven expertise, deep resources and full lifecycle ...

SEIA makes major solar project data available to the public through the map below. SEIA members have exclusive access to the list as a sortable, searchable MS Excel file that is updated ...

Super Project Solar Power Generation

Discover the world's biggest operational solar farms and the mega projects set to reshape tomorrow's renewable energy landscape.

These "next generation" projects provide both confidence and momentum behind our gigawatt-campus model. They are where planning turns into action, continuing Copia's track record of transforming ...
