Our technical expertise in the power industry is well recognised energy player especially in the Kingdom of Eswatini and SADC region.

The Avalon Energy Storage System is made up of a stackable, slim designed High Voltage Battery that pairs with a High Voltage Inverter providing solar storage and backup power.

It integrates the photovoltaic, wind energy, rectifier modules, and lithium batteries for a stable power supply, backup power, and optical network access in one enclosure.

How to install the outdoor cabinet battery energy storage cabinet This guide provides step-by-step instructions on how to install your R-BOX-OC outdoor solar battery cabinet, including site selection, ...

Sometimes energy storage is co-located with, or placed next to, a solar energy system, and sometimes the storage system stands alone, but in either configuration, it can help more effectively integrate ...

The project employs molten salt thermal energy storage technology that utilizes the temperature differential during the salt's heating and cooling processes to store energy.

This goal is pursued through the newly established SADC Centre for Renewable Energy and Energy Efficiency (SACREEE), which is mandated to promote markets for renewable energy and energy ...

The Eswatini Energy Regulatory Authority (ESERA) is searching for private minigrid developers to design, construct, operate and maintain a minigrid system that will electrify a remote community in ...

The Government of Eswatini has embarked on a process of increasing domestic power generation and is developing its rich tapestry of conventional and renewable energy resources through several...

Swaziland energy storage cabinet wind turbine installation site

This article explores the growing role of energy storage in Swaziland's renewable energy transition, highlights real-world applications, and provides actionable insights for industries seeking resilient ...
