A new pumped-storage power station, one of the most powerful in Europe, came on stream in canton Valais in southern Switzerland in July 2022.

Swiss Data Center to Pilot Iron-Sodium Battery for Energy Storage The insatiable demand for data is placing unprecedented strain on the world's power grids. Data centers, the ...

Inlyte and NTS plan to deploy 2 MW of iron-sodium by 2028 with initial installation in late 2026 Surging global data center energy demand is driving operators to rethink power strategy Inlyte's ...

This isn't sci-fi - it's today's container energy storage system (CESS) in action. As renewable energy adoption accelerates, these modular powerhouses are rewriting the rules of energy management for ...

Inlyte Energy, which makes iron-sodium battery energy storage systems, and NTS Colocation AG (NTS), a Swiss-based company that runs carrier-neutral, Tier IV-certified data centers, ...

Optimising megawatt charging in Switzerland with Brunstock BESS technology Switzerland is accelerating the shift to electric heavy transport, and reliable megawatt-scale charging is ...

Based on current scientific knowledge, leading Swiss researchers consider that where large amounts of energy need to be stored for the medium to long-term, technologies such as ...

Summary: Swiss EK energy storage containers are transforming industries by offering scalable, modular solutions for renewable energy integration, grid stability, and industrial power management. This ...

As we approach Q2 2025's bid deadline, one thing's clear: Switzerland isn't just buying storage systems--they're procuring grid resilience. The winners won't be those with the cheapest kWh price, ...
