Each quarter, the National Renewable Energy Laboratory conducts the Quarterly Solar Industry Update, a presentation of technical trends within the ...

Despite an overall 7% decline in the global solar thermal market, some regional markets demonstrated significant growth. The Indian solar thermal energy market achieved a 27% growth ...

Solar photovoltaic and solar thermal power plants provided about 4% of total U.S. utility-scale electricity and accounted for 18% of utility-scale electricity generation from renewable sources ...

This is the 2025 update of the Clean Energy Technology Observatory report on trends in the development of solar thermal energy, including concentrated solar power (CSP) and solar heat ...

As the energy crisis fueled by Russia's invasion of Ukraine has subsided, demand for residential solar systems in the EU has declined and several residential solar incentive schemes ...

Solar thermal technologies deployed in around 400 million dwellings by 2030 - Analysis and key findings. A report by the International Energy Agency.

Uncover the latest and most impactful research in Solar Thermal Energy. Explore pioneering discoveries, insightful ideas and new methods from leading researchers in the field.

The present review study, through a detailed and systematic literature survey, summarizes the world solar energy status along with the published solar energy potential assessment articles for ...

The Global Solar Power Tracker is composed of worldwide facility-level data on utility-scale (1 MW+) solar photovoltaic (PV) and solar thermal facilities, as well as country-aggregated distributed (<1 ...
