Jul 1, 2025 &#183; The 37.5 MWp (megawatt-peak) plant, owned and operated by CI-Energies (C&#244;te d'Ivoire Energies), will be the first large-scale solar project in C&#244;te d'Ivoire.

The Rudong project is the world's first commercial scale deployment of a non-pumped hydro, gravitational energy storage system. An anticipated 80% round trip efficiency puts the EVx(TM) ahead ...

China Energy Engineering Corporation (CEEC) is preparing to launch its first utility-scale solar project in Africa, marking a significant step in the continent's renewable energy transition.

As Cote d'Ivoire accelerates its renewable energy transition, energy storage system factories are becoming critical infrastructure. This guide explores the current landscape, emerging trends, and ...

The 37.5 MW plant, owned and operated by CI-Energies (C&#244;te d'Ivoire Energies), will be the first large-scale solar project in C&#244;te d'Ivoire, and in operation is expected to avoid the annual emission of 27 ...

The program is designed to reinforce the country's position as a regional energy hub in West Africa. It includes plans for installing 150 MW of battery storage, modernizing the power grid, ...

Paris, May 11th 2022 - Saft, a subsidiary of TotalEnergies, has won a major contract from Eiffage Energie Syst&#232;mes to deliver a 10 MW energy storage system (ESS) that will ensure smooth grid ...

As the country's first private independent power producer (IPP), AMEA Power, a leading developer of renewable energy projects, will develop, construct and operate the solar power station. ...

Equipped with Sungrow's advanced liquid-cooled ESS PowerTitan 2.0, this facility is Uzbekistan's first energy storage project and the largest of its kind in Central Asia.
