---

This achieves an integrated 'PV + Energy Storage' solution. The cabinet system adopts a modular design, allowing flexible configurations for photovoltaic, ...

Engineered for Reliability and Performance Solis combines MPPT, PCS, grid-tied/off-grid switching (STS), and EMS into one unified control system, which is pre-integrated and tested at the factory to ...

Featuring advanced liquid cooling technology and an IP65-rated enclosure, this cabinet delivers 156kWh nominal capacity and 50kW power output, ideal for peak shaving, renewable energy integration, ...

50kW / 100kWh Outdoor All-in-one Battery Storage Cabinet Designed for SMEs: garden centres, farm shops, schools, zoos, pubs, restaurants, micro-breweries and solar car parks

Commissioning by GivEnergy is included Mainland UK. The GivPCS 50kW controller with scalable 69kWh battery options, is a small to medium enterprise energy storage system.

With support for 200% PV oversizing and a maximum 40A DC input current, the Hybrid ESS Cabinet ensures high throughput for large-scale solar integration. ...

Built with LiFePO<sub>4</sub> (Lithium Iron Phosphate) batteries, intelligent BMS, and a modular cabinet design, HV200K ensures long service life, high efficiency, and excellent safety performance. With an IP55 ...

The depth of discharge stands at 90%, ensuring efficient energy usage. The system is designed to withstand diverse environmental conditions, with an operating temperature range of -30°C to +50°C, ...

LIPEP has a wealth of experience and our technical team can provide you with a customised energy storage and solar system tailored to your needs. We have in ...
